

# Cyber Security Voucher Program

## Supporting Partner Directory

If you require external support for your cyber security uplift/upskilling project, we recommend considering the following organisations from Defence Trailblazer's network of cyber security industry experts and education and training providers:

### Apex Sentinel (Canberra, Perth, Brisbane)

Apex Sentinel specialises in:

- **Countering foreign interference** through organisation vulnerability assessments, supply chain assessments and business resilience uplift
- **Cyber security services and technology** through cyber security gap analyses, monitoring and response solutions and Cybersecurity Maturity Model Certification (CMMC)
- **DISP uplift** through DISP gap analyses, DISP application support, security clearance sponsorship and post-accreditation security governance support.

Visit <https://www.apexsentinel.com.au/trailblazer> to learn more, contact Apex Sentinel at [engagement@apexsentinel.com.au](mailto:engagement@apexsentinel.com.au) or [request an introduction](#).

### Australian Cyber Collaboration Centre (Aus3C) (Adelaide)

Aus3C is a not-for-profit, member-based organisation offering small business support, collaboration opportunities, training and education, and facilities to member organisations and customers. Aus3C offers a range of cyber security support services and specialises in:

- Insider Risk Management Training and Playbooks – Home Affairs endorsed
- Infosec Registered Assessors Program (IRP) Assessor training – ASD approved
- Information Security Manual (ISM) Fundamentals training – ASD approved
- Cybersecurity Maturity Model Certification (CMMC) certification – DISP gap analysis
- MITRE Engage - a framework for conducting Denial, Deception, and Adversary Engagements.
- Incident Response Training for SOC operators

Visit <https://www.cybercollaboration.org.au/> to learn more, contact Aus3C through <https://www.cybercollaboration.org.au/contact>, or [request an introduction](#).

### Bluerydge (Canberra)

Bluerydge specialises in:

- **Advisory** – Strategically advising on cybersecurity, Bluerydge blend vision with risk management. Assessing cyber maturity and implementing leading frameworks, Bluerydge guide businesses to global compliance
- **Governance** – Bluerydge align cybersecurity governance with business goals, manage certification and accreditation, implement DISP, ISO 27001 and CMMC standards.

- **Threat Management** – Bluerydge proactively discover threats, manage insider risks and respond to incidents. Our services span vulnerability assessments, penetration testing, and continuous cybersecurity oversight, both on-premises and in the cloud.
- **Capability Development** – Bluerydge uplift cybersecurity maturity, manage identities, prevent data loss and secure cloud assets. Through Zero Trust, strategic logging, audits and tailored tool stacks, Bluerydge refine and deploy optimal security solutions across systems and vendors.

Visit <https://bluerydge.com> to learn more, contact Bluerydge through <https://bluerydge.com/contact/>, or [request an introduction](#).

#### DTEX (California, Adelaide)

DTEX specialises in:

- **Insider risk management software**

Visit <https://www.dtexsystems.com/>, contact DTEX through <https://www.dtexsystems.com/contact-us/> or [request an introduction](#).

#### Providence (Canberra, Adelaide, Sydney, Melbourne)

Providence specialises in:

- Enterprise security management systems
- Security risk assessments
- Security risk governance
- Personnel security management systems
- Insider threat programs
- Supply chain security
- compliance with regulatory requirements
- Training and awareness.

Visit <https://providenceconsulting.com.au/enterprise-protective-security-services/>, contact Providence through <https://providenceconsulting.com.au/contact/> or [request an introduction](#).

#### Tesseract Cyber Solutions (Melbourne, Sydney, Brisbane & Canberra)

Tesseract Cyber Solutions specialises in:

- DISP readiness and implementation
- ISO/ IEC 27001 implementation and certification support
- ASD Essential 8 technical uplift
- NIST assessments, design and implementation
- Risk assessment and roadmaps
- Offensive security and vulnerability identification
- Risk management and countermeasures
- Bespoke training and education
- Incident Response, Disaster Recovery and Business Continuity

Visit [www.tesseract.com](http://www.tesseract.com), contact Tesseract Cyber Solutions through <https://tesseract.com/contact> or [request an introduction](#).

#### Viden (Canberra)

Viden specialises in:

- DISP uplift
- Hardware analysis
- Software analysis
- Supply chain analysis

Visit <https://www.viden.com/>, contact Viden through <https://www.viden.com/contact-us/> or [request an introduction](#).

#### University of Adelaide School of Computer and Mathematical Sciences (Adelaide)

The University of Adelaide School of Computer and Mathematical Sciences offers undergraduate and postgraduate education programs in cyber security and related disciplines, higher degree by research projects, and short courses in cyber security and related disciplines.

Visit <https://set.adelaide.edu.au/computer-and-mathematical-sciences/> or [request an introduction](#).

#### UNSW Institute for Cyber Security (Sydney, Canberra)

The UNSW Institute for Cyber Security (IFCYBER) offers undergraduate and postgraduate education programs in cyber security and related disciplines, higher degree by research projects, and short courses in cyber security and related disciplines.

Visit <https://www.unsw.edu.au/research/ifcyber/study-us> or [request an introduction](#).
